

Top Tips: Reduce or eliminate roaming charges with BT smartnumbers mobile.

From June 2017, mobile roaming across Europe will be abolished. However, you don't need to wait until then to reduce or eliminate your worldwide roaming costs with BT smartnumbers mobile.

If you're a regulated user and need your calls recorded for compliance, be assured that recordings of your business calls will still be captured when working overseas – even if you are routing to an IP phone or an international landline.

Fixed-line routing.

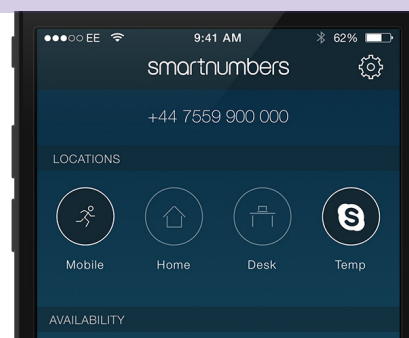

For occasions where you are working from an office or hotel-room overseas, you can select to deliver your UK mobile calls to the nearest landline. In this way, calls to your UK mobile number will be delivered to wherever you are working without any roaming charges

This is selectable from within the 'Location' setting in the smartnumbers dialler.

WiFi calling.

With BT smartnumbers mobile you can make use of 'wifi calling' even on networks that don't natively support this feature. With wifi calling, simply select an IP client (such as Skype, Jabber or WhatsApp) to carry your calls so you can say goodbye to roaming charges.

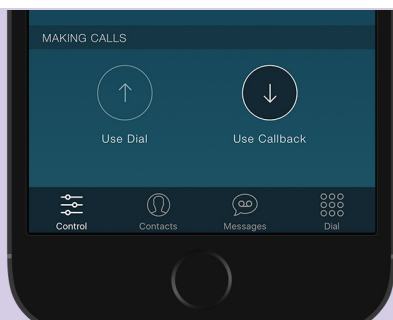

This is selectable from within the 'Location' setting in the smartnumbers dialler.

Callback.

When you're on the move and without access to a landline or wifi signal, BT smartnumbers mobile call still reduce your roaming charges. Simply select 'Callback' within your dialler, and all outgoing calls made from your dialler are charged as incoming calls directly to the company.

This is selectable from the Control screen 'Callback' option in the smartnumbers dialler.
